## EXPERIENCE SUMMARY

I am very enthusiastic and hardworking, during my training i have learnt several languages like HTML5,CSS3, Bootstrap,JavaScript,Java-J2EE and basic of AngularJS. I am very interested in developing website and designing contents. Currently a website named as [www.linuxtutors.com](http://www.linuxtutors.com) is active. My goal is to be a good web developer and seek a position in an office environment where there is a need for a variety of office management tasks and opportunities for my skills and ability to work with people.

## 05/04/2020 - 13/04/2020 (CSS – Step by Step Lab guide)

Role: DEVELOPER - L1

Domain: NOTAPPLICABLE

Team Size: 1

Project Environment: NA

Skills	Duration
CSS	1Day(s)

**Description:**

\*CSS – Step by Step Lab guide\*

**Responsibility:**

Successfully completed "CSS – Step by Step Lab guide" training/case study project in TopGear in 1 days, from 05/04/2020 to 13-04-2020 by applying learnings, geared to the needs of the industry, to gain effective hands-on experience.

## 27/03/2020 - 13/04/2020 (HTML5 - Assignments)

Role: DEVELOPER - L1

Domain: NOTAPPLICABLE

Team Size: 1

Project Environment: NA

Skills	Duration
CSS	1Month(s)

**Description:**

This project is a set of assignments/lab exercises that the developer can attempt to apply his/her learning on the HTML 5 skill

**Responsibility:**

Successfully completed "HTML5 - Assignments" training/case study project in TopGear in 1 days, from 27/03/2020 to 13-04-2020 by applying learnings, geared to the needs of the industry, to gain effective hands-on experience.

## 17/03/2020 - 13/04/2020 (Trend.Nxt Bootstrap L1 - set 1)

Role: DEVELOPER - L1

Domain: NOTAPPLICABLE

Team Size: 1

Project Environment: NA

**Description:**

This Trend.Nxt Top Gear Hands-on Assignments consists of problem statements as per Trend.Nxt ToC. This helps learner to further strengthen the understanding of the concepts learnt by applying the same to solve various problem statements. For TOC and other details pls refer link - <https://wipro365.sharepoint.com/sites/ku-practice-4043/CCXCompetency/TREND.NxT/Pages/Bootstrap-L1.aspx>

**Responsibility:**

Successfully completed "Trend.Nxt Bootstrap L1 - set 1" training/case study project in TopGear in 2 days, from 17/03/2020 to 13-04-2020 by applying learnings, geared to the needs of the industry, to gain effective hands-on experience.

## 24/06/2019 - 13/04/2020 (trendnxt\_bootstrap\_l1)

Role: DEVELOPER - L1

Domain: NOTAPPLICABLE

Team Size: 1

**Project Environment:** NA

**Description:**

cluster trg

**Responsibility:**

Successfully completed "trendxt\_bootstrap\_l1" training/case study project in TopGear in 2 days, from 24/06/2019 to 13-04-2020 by applying learnings, geared to the needs of the industry, to gain effective hands-on experience.

**10/04/2020 - 12/04/2020 (UXP-JavaScript-L1-0001 JavaScript user I)**

**Role:** DEVELOPER - L1

**Domain:** NOTAPPLICABLE

**Team Size:** 1

**Project Environment:** NA

**Description:**

UXP-JavaScript-L1-0001 JavaScript user login form is a case study project to create a login page by using JavaScript, HTML5, CSS3, Bootstrap. Pre -requisites: JavaScript, HTML5, CSS3, Bootstrap. Estimated efforts : 5 person days.

**Responsibility:**

Successfully completed "UXP-JavaScript-L1-0001 JavaScript user login form" training/case study project in TopGear in 5 days, from 10/04/2020 to 12-04-2020 by applying learnings, geared to the needs of the industry, to gain effective hands-on experience.

**24/03/2020 - 10/04/2020 (HTML 5-L1-Training)**

**Role:** DEVELOPER - L1
